Modified Amtrak Service for the Keystone Service

From April 27 through December 23, 2015, Sunday nights through Friday mornings, Amtrak will be performing work at the State interlocking in Harrisburg, requires the overhead catenary to be de-energized. During this time westbound Trains 671 and 619, and eastbound Trains 612 and 622, will operate with diesel locomotives, which need time to be added and train accelerates more slowly than electric locomotives. The schedules have been adjusted to take this into account and station time will be indicated on the reservation.
